*Based on a national sample of 1,009 U.S. larger private and community foundations (including 800 of the 1,000 largest ranked by total giving), grants of \$10,000 or more. For community foundations, only discretionary grants are included. Grants to individuals are not included in the file. Grants may benefit multiple population groups, e.g., a grant for homeless children, and therefore may be counted in more than one population group table. In addition, while the full value of the grant is counted, in practice only a portion of some grants benefit the specified population group(s).
