<b>Women &amp; Girls</b>	736,548	6.4	7,245	6.7
<b>Not Specified/General Public</b>	\$7,600,139	65.7	63,108	58.3

Source: *Foundation Giving Trends* (2001), The Foundation Center. All dollar figures expressed in thousands; due to rounding, figures may not add up.

\*Based on a national sample of 1,016 U.S. larger foundations (including 800 of the 1,000 largest ranked by total giving), grants of \$10,000 or more. For community foundations, only discretionary grants are included. Figures represent only grants awarded to groups that could be identified as serving specific populations or grants whose descriptions specified a benefit for a specific population. These figures do not reflect all giving benefiting these groups. In addition, grants to individuals are not included in the file. Grants may benefit multiple population groups, i.e., a grant for economically disadvantaged youth, and therefore figures are only representative.
